- **<u>Back-End</u>**: Node, Express, C#, ASP.NET, Java, Spring, PostgreSQL
- **<u>Tooling</u>**: Jest, React Testing Library, Git, GitHub, GitLab, SourceTree, Chrome DevTools

Professional Experience

Software Engineer Contractor at Apple | TekSystems

April 2023 – Present // Raleigh, NC

Technical Environment – React, Redux, NextJS, SCSS, Java, Spring, PostgreSQL, Git, GitHub, Jest, React Testing Library

- Collaborated with 2 other developers to refactor an existing project using NextJS in order to serve documents gathered from various GitHub repositories
    - Improved build time of the application by over 90%
    - Implemented a proprietary analytics tool to allow us to track usage of the application
- Collaborated with ~15 other developers to develop an internal tool used by over 700 SREs daily who use this tool to resolve issues, view reports, and gain insights and visibility into service health and reliability. Built and expanded several RESTful APIs to access data from various services
    - Led a refactor in how permissions were managed and applied throughout the application and established a consistent permissions structure to follow when adding new pages or features.

Software Developer | Prometheus Group

July 2022 – April 2023 // Raleigh, NC

Technical Environment – React, Redux, TypeScript, C#, ASP.NET, PostgreSQL, JIRA, Git, Gitlab, SourceTree, DevExpress

- Collaborated with 14 other developers to develop an enterprise application containing 4 separate applications that integrate with SAP and Primavera P6.
    - Completes approximately 18% of the total tickets per release.
- Implemented Ag-Grid React to display and organize data synced from the Primavera API as well as SAP.
- Led all development on DevExpress Reporting which includes not only the creation and modification of reports, but also the management of the database schema to which these reports connect.

Implementation Specialist | Prometheus Group

April 2021 – June 2022 // Raleigh, NC

Technical Environment – PostgreSQL, Excel, HTML, CSS, Git, JIRA, DevExpress

Associate Software Engineer | Infosys LTD.

June 2019 – June 2020 // Raleigh, NC
